2020 SPEAKERS KIT

From humble beginnings as an first generation immigrant, to entrepreneur, presenter and award winning author, Michele Gennoe is a powerful inspiration to leaders around the world

With over 20 years experience in leadership roles Michele has worked across corporate, government and not for profit sectors as a **trusted advisor and consultant** for organisations ranging from Shine through to the Department of Education and Red Cross. Over time the way that we lead and manage businesses has also changed rapidly and evolved into an age where we are almost drowning in the information available whilst being thirsty for the wisdom behind it.

In moving with her family to Western Australia at the age of four Michele learned how to survive profound change and transition from an early age and difficult family dynamics further refined this skill. These early lessons in survival have carried through so that – in life and in business – Michele has been successful and is highly sought after as an authority in the change and leadership space.

As a keynote presenter, Michele's authenticity is one of her greatest assets. She has the rare ability to connect with people by holding up a mirror to them and showing them the metaphoric parsley stuck in their teeth, with compassion, conviction and humour.

Michele imparts wisdom generously but with clear expectations – she doesn't want to leave a warm and fuzzy lasting impression on her audience, she wants to have a lasting impact on the way they choose to work and mindfully lead their lives as a result of what they have learned.

Michele is an award winning business author and presenter not just because her personal story is moving or because she is exceptional at breaking complex issues down into bite-sized pieces (although that certainly helps) but through her compelling examples which are relatable to her audience. After **20 years as a leader** in industries as diverse as **banking, media, charity and consulting**, she has been there and done it and paid close attention to what works and what doesn't.

Mindful Michele's advice is a combination of street smart wisdom, practical concepts and productive triggers, derived from the hard learned lessons of her own trial and error, as well as years of close observation and identification of the characteristics shared by leaders and their teams globally.
